- > Consultancy
- > Operational Excellence Academy
- > Coaching & Training

Lean and Visual Factory

Turn-key Visual Factory Fit Out Project Management, incorporating:

- > Visual Safety Barriers
- > Projected Floor Markings
- > Floor Markings and Coatings
- > Electronic Visual Management

3D Approach

- > Our unique 3D approach supports a proven process incorporating the lean, visual and safe benefits of Operational Excellence.

A guaranteed methodology for your project's success

Discover

All projects are only as good as a thorough understanding of the desired outcome. That's why all our projects start with an onsite assessment to understand your vision. We then align this with Operational Best Practice to produce a clear project scope.

Design

Closely collaborating between you, our Lean experts and our team of designers, we will produce a carefully crafted project scope. Whether this is a 3D Visual Factory design, or a carefully crafted OpEx coaching program, our experience in Operational Excellence optimises the success of your project.

Deliver

Working with our carefully selected consultants and supply chain partners, we will transform your vision from design to reality.

Visual Management Boards

At Clarity we offer a range of visual management boards to monitor and track the success of your daily operations, and to help implement Lean operating procedures:

- > SQDIP Boards
- > 5S Boards
- > PTW Boards
- > LOTO Boards

Cleaning Stations

Stainless Steel Holders

Mobile

Variety of Colours

Wall-mounted

Variety of Tools

All of our cleaning stations start as concepts based on the individual needs of you and your business.

Tool Shadow Boards

Machine Parts Storage

Tool Control

Designed for your own tools

Our shadow boards are a simple solution with enormous potential to save time and promote tidiness, and therefore lean practices within the workplace.

Lean and Visual Factory

Visual Safety Protection Barriers

Clarity Visual Safety Barriers provide protection for people, assets and equipment to create safe and visual conditions in the workplace.

Projected Floor Markings

Clarity Projected Floor Markings use the latest technology to provide highly visual and safe working environments.

Floor Markings
and Coatings

Strategic Floor Marking creates order and patterns of work in your facility, which eliminates time wasted in searching within a work area.

Electronic Visual Management

Lost Time Injury Boards

Bespoke Electronic Signage created to your requirements

- > Remote reset function
- > Customisable LED message

Site Safety Boards

Interactive Status Boards

Consultancy Packages

Consultancy

Clarity's lean consulting service looks at your organisation in depth to maximise value and eliminate waste.

Operational Excellence Academy

Clarity's Operational Excellence Academy brings together your team, our experience, and the collaborative power of visual communication to ensure a culture of Continuous Improvement is cultivated throughout your organisation.

Coaching and Training

Coaching

Providing mentorship to enable lasting culture change.

Training

Empowering your workforce with the right knowledge to ensure efficient operations and continuous improvement.

What our clients say

The quality of the work they send... and the passion that they all share is second to none.

*Mark Rosser
Production Manager at E&R Group*

What our clients say

We get a first class product and a first class service.

*Steve Underhill
Operations Manager at Jotun Paints*

What our clients say

We've tried 6S and continuous improvement on and off at this site with various different budgets and I would say that with Clarity, this is the first time that we have had buy-in from the top and throughout the business and it's working better than we ever could have hoped for!

*Steve Lomax
Site Operations Manager, Crown Paints*

Thank You!
