

A powerful visual  
management  
tool

Magnetic  
Overlays

# MAGNETIC OVERLAYS

ClarityVM's overlays are key to transforming a magnetic whiteboard into an effective visual management feature.

Printed on a flexible, magnetic material, our dry-wipe overlays can be placed onto a magnetic whiteboard or magnet receptive material within the workplace to display up to date, relevant information for all the workforce.

When a design change is needed, the magnetic overlay can be simply rolled up ready to be reused elsewhere. This ensures you are always working with current designs and greatly promotes continuous improvement throughout.

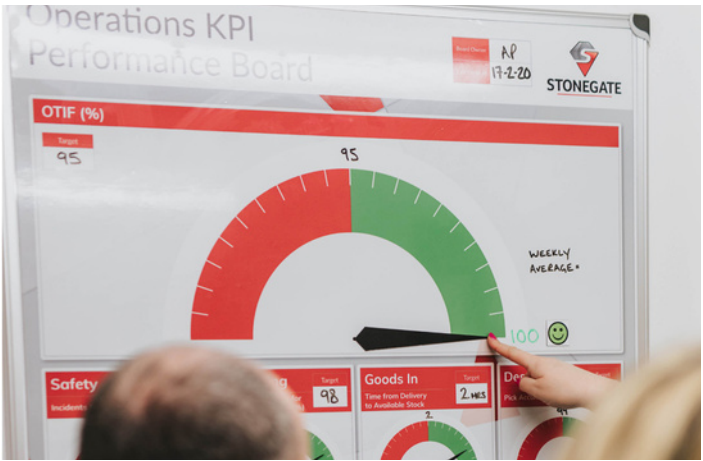

### Benefits of using magnetic overlays:

- Space saving
- Highly durable
- Simple to install
- Easy to clean
- Bespoke design in line with company branding
- Easy to roll up and move
